

# Article Reflection 4

*Dr. Christopher Brown*

*December 24, 2018*

For the fourth article reflection, we'll take a look at the article [Predicting Exercise Behavior in Fitness Applications](#).

For the reflection,

- Outline the main points in the article.
- How was cluster analysis used in this study?
- What was being predicted, and what role did the cluster analysis play in that prediction?
- Critique the tables and graphics used in this article.

Your write-up should be typed, single-spaced, and less than 4 pages in length.
